AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (Currently Amended): An electric toothbrush comprising

a replaceable brush having <u>only</u> a single head and <u>only</u> a single tufted portion formed in the <u>single</u> head, said tufted portion having a plurality of tufted filaments, wherein

brushing is enabled by back-and-forth linear movement of the entire tufted portion in only a longitudinal direction of the replaceable brush,

the distance (mm) of movement of the tufted portion is set in the range of 0.5 - 3mm, the frequency (times) of back-and-forth motion of the tufted portion per minute is set in the range of 2000 - 11,000, and

the product of the distance (mm) of movement of the tufted portion and the frequency (times) of back-and-forth motion per minute is set in the range of 5000 - 7000.

Claims 2 -6 (Canceled)

Claim 7 (Previously Presented): The electric toothbrush according to claim 1, wherein filaments are combined to form the tufted filaments and the tufted filaments are arranged to form the

U.S. Patent Application Serial No. 10/561,542 Reply to OA dated February 2, 2011

tufted portion, and tip portions of at least 30% or more of all the filaments in the tufted filaments are split into a plurality of portions.

Claim 8 (Previously Presented): The electric toothbrush according to claim 1, wherein a DC electric motor is used as means for moving said tufted portion.

Claims 9 -20 (Canceled)
